Number of Hours?

Per Treatment Plan or IEP
Toddlers & Pre-Schoolers

• Parent Consult

• Parent as the hands of the therapist

Prompting

• Instructional technique that helps the child make the correct response.
  • Used when a child does not know and/or performs a skill infrequently
  • Provides extra help the child needs to perform the desired behavior/skill so that it can be reinforced and strengthened
  • Gradually faded to decrease dependence on the prompt

• Ultimately you want your child to respond to the $S^D$ (initial instruction) without needing a prompt to complete the task.
Teaching Workflow to Teens

• Make a list of assignments.

• Estimate time for each.

• What is easiest? What is already started?

• How much time do I have?
